06/2005 - 05/2015   *Ahmedabad, India, Percentage(85.33%)*

WORK EXPERIENCE

Intern
Dove Soft Private Limited

05/2019 - 08/2019   *Ahmedabad, India*
IT Company.

Achievements/Tasks
- I designed a module to convert a text message to a voice call using Core JAVA, J2EE, Struts 2.0, and JspServlet.
- The bulk text SMS was used to be sent by the company and some of it was transactional OTP messages, so if some transactional OTP messages were not delivered, then the text messages were to be recorded to send Voice call. But now, using my module the undelivered SMS are directly converted to voice call of Mp3 format after reading the text message using the module.
